Pardo Endurance 72

DESCRIPTION

SPECIFICATIONS

Introducing the New Pardo E72 soon in Saint-Tropez, France With the Endurance 72, Pardo Yachts takes the brand's iconic bow lines to new heights. As the second model in the Endurance range, this 72-foot vessel continues the philosophy set by its predecessor, the Endurance 60, maintaining the strong family resemblance evident in the cockpit area and walkaround-style deck. The Endurance 72 promises more space, volume, and comfort on board, evident from the moment you step into the expansive cockpit area. Here, the fold-down side terraces and aft platform create a sprawling chill-out space of over 40 square meters, providing direct access to the water. Additionally, the stern garage features hydraulic opening, capable of accommodating a tender up to 4 meters in length. On the flybridge, spanning 27 square meters, the Endurance 72 introduces an exclusive new feature to the range: a T-top with adjustable slats that offer shade and protection. The lightweight, low-profile superstructure maintains stability without compromising the boat's overall aesthetic. Performance-wise, the Endurance 72 introduces a groundbreaking new parameter: eco-speed. This defines the speed at which fuel consumption is minimized while optimizing comfort onboard, representing the pinnacle of performance efficiency.
